

# Savings Resources for Prostate Cancer Medications

---

This guide, created by NeedyMeds, is designed to help individuals with prostate cancer find financial support for their treatment. It provides information on two key types of programs you can find on [NeedyMeds.org](https://www.NeedyMeds.org).

1. **Patient Assistance Programs (PAPs):** These programs provide free or low-cost medications to eligible patients who meet specific criteria, such as income limits or lack of insurance coverage.
2. **Manufacturer Copay Assistance Programs:** These programs are designed to help insured patients reduce their out-of-pocket costs for medications by covering a portion of their co-payments.

The resources in this guide can help make prostate cancer treatment more affordable and accessible.

**Disclaimer:** This guide is for informational purposes only and is not a substitute for professional medical advice, diagnosis, or treatment. Always consult a healthcare provider for advice about your health or treatment options.
